

PDC Notes

to accompany the
Permaculture Design Certificate
run by
Very Edible Gardens PTY LTD
Spring 2013
Version. 2.03

Table of Contents (Short Version)

Table of Contents (Short Version).....	2
Table of Contents (Long Version).....	3
Welcome	9
Acknowledgements.....	9
Introduction to this Course.....	10
Introduction to Permaculture	13
The Permaculture Design Process (Day One & Two).....	24
Climate & Land Form (Day Three – first half).....	52
Patterns (Day Three – second half).....	63
Water & Access (Day Four).....	67
Trees & Forests (Day Five).....	94
Soils (Day Six).....	115
Crops (Day Nine).....	136
Animals (Day Eight)	150
Appropriate technology (Day Ten – Session One & Two).....	160
Bioregions and Communities (Day Eleven – Sessions One and Two).....	173
Ecovillages (Day Eleven – Second part of Session 2).....	180
Strategies & Techniques for Different Climates (Bonus section of notes).....	183
Trusts & Legal Strategies (Bonus section)	189
Money & Finance (Day Twelve)	191
Making a living using permaculture (Day Twelve – Second session).....	194
Appendix 1.: Design Assignment	1
Appendix 2.: Learning Style Self-Assessment Questionnaire	5
Appendix 3.: Example People Analysis / Host Survey.....	8
Appendix 4.: Bill Mollison on Slope, Aspect & Elevation Planning	10
Appendix 5.: Holistic Management	13
Appendix 6.: Further Reading.....	16
Appendix 7.: Key Terms.....	17
Endnotes.....	18

Table of Contents (Long Version)

Table of Contents (Short Version)	2
Table of Contents (Long Version)	3
Welcome	9
Acknowledgements	9
Introduction to this Course	10
Participant Expectations, Skills & Learning Styles	10
Course Aims	11
Participant Responsibilities	11
Facilitator Responsibilities	11
Learning Agreements	12
Introduction to Permaculture	13
What is Permaculture?	13
Activity	13
Some Definitions of Permaculture	14
Permaculture's Many Faces	14
Permaculture's Breadth	15
History & Context of Permaculture	15
Where permaculture came from	15
Why permaculture is relevant	17
Permaculture as Applied Systems Thinking	19
Aspecting vs. Inspecting	20
Enter the Holarchy	20
Function before Form	20
A Permaculture Design Framework: EPDST	20
What are Permaculture Ethics?	21
What are Permaculture Principles?	21
Strategies	23
Techniques	23
Further Reading	23
Online	23
The Permaculture Design Process (Day One & Two)	24
Activities	24

	4
Input-Output.....	24
Web of Life Game.....	24
This PDC’s Design Principles.....	24
1. Make Connections.....	24
2. Create Interactive Diversity	24
3. Cycle Resources.....	25
4. Catch & Store Energy	26
5. Obtain a Yield	28
6. Use Multifunction	28
7. Back Up Major Functions.....	29
8. Use Succession.....	29
9. Use Biological (Renewable) Resources.....	29
10. Use Small-Scale Intensive Systems	30
11. Use Edge	30
Design Process Overview	30
1. Observation	31
2. Design	39
3. Implementation	47
4. Management & Maintenance	47
A Design Example	48
Design Process Summary – Key Points.....	50
Further Reading.....	50
Introductory.....	50
Advanced	51
Relevant Websites / Pages	51
Climate & Land Form (Day Three – first half).....	52
Climate	52
Social, cultural & legal climate.....	52
Physical Climate	52
Broad Climatic Zones	53
Precipitation	53
Radiation	54
Wind.....	56
Landscape Effects	57
Example of Designing to Prevailing Climatic Conditions.....	57

Example of Not Designing to Prevailing Climatic Conditions.....	58
Land shape & the Brittleness Scale.....	58
Humid landscapes	59
Arid landscapes	60
Tropical landscapes.....	60
The Brittleness Scale.....	61
Climate - Summary of Key Points	62
Patterns (Day Three – second half).....	63
Patterns.....	63
Reading the landscape.....	63
Types of Pattern (observed & enabled).....	63
Urban Design Patterns	65
A Pattern Language.....	65
Patterns - Summary of Key Points.....	66
Water & Access (Day Four).....	67
Water ecology	67
Distribution of Water on the Blue Planet.....	67
The Water Cycle	67
Water strategies & techniques.....	72
Zone 1 & 2 water strategies	72
Zone 3, 4 & 5 water strategies	77
Access strategies & techniques.....	92
Paths & Roads.....	92
Water Summary – Key Points.....	92
Further Reading.....	92
Further Watching	93
Trees & Forests (Day Five).....	94
Forest ecology	94
Trees & Sunlight	95
Trees & Precipitation	97
Trees & Wind.....	98
Trees & Landscape.....	98
Succession.....	99
Guilds	100
Tree strategies & techniques	100

Zone 1 tree strategies	101
Zone 2 tree strategies	102
Zone 3&4 tree strategies	108
Zone 5 tree strategies	113
Tree Summary – Key Points	113
Further Reading.....	113
Worth Watching.....	114
Worth Listening To.....	114
Soils (Day Six).....	115
Soil ecology.....	115
Soil structure	115
Soil chemistry	119
Soil biology	121
Soil strategies & techniques.....	122
Zone 1 soil strategies & techniques	123
Zone 2 soil strategies & techniques	127
Zone 3 soil strategies & techniques	128
Zone 4 soil strategies & techniques	134
Key Learning Objectives	135
Crops (Day Nine).....	136
Grass, herb & forb ecology (ethics, principles, patterns).....	136
Crop strategies & techniques	136
Zone 1&2 crop strategies & techniques.....	136
Seed Saving.....	144
Zone 3 crop strategies & techniques	147
Weeds.....	148
Weeds as Soil Indicators	148
Further Reading.....	149
Worth Watching.....	149
Animals (Day Eight)	150
Animal ecology (ethics, principles, patterns).....	150
The Trophic Pyramid Revisited	150
Coevolution & Breeding	151
Animals by zone.....	151
Zone 1 & 2 animals.....	151

Zone 3 & 4 animals.....	159
Further Reading.....	159
Poultry.....	159
Rabbits.....	159
Cattle.....	159
Sheep.....	159
Bees.....	159
Appropriate technology (Day Ten – Session One & Two).....	160
Natural Building Design.....	161
Passive Solar.....	161
Heating and Cooking.....	162
Drinking Water.....	166
Composting Toilets.....	168
Grey Water Treatment and Reuse Systems.....	170
Further Reading.....	172
Greywater.....	172
Relevant Web Sites.....	172
Humanure.....	172
Greywater.....	172
Rocket Stoves.....	172
Bioregions and Communities (Day Eleven – Sessions One and Two).....	173
Spiral Dynamics: A Cultural Perspective.....	173
Blue – Purposeful/Authoritarian Meme – starting 5,000 years ago.....	173
Orange – Achievist/Strategic Meme – starting 300 years ago.....	173
Green – Communitarian/Egalitarian Meme – starting 150 years ago.....	174
Yellow – Integrative Meme – starting 50 years ago.....	174
Community v. Self Sufficiency.....	174
Bioregional organising.....	175
What is a bioregion?.....	175
What is Bioregionalism?.....	175
Bioregional governance.....	176
Bioregionalism in terms of social change.....	176
Ways of encouraging bioregionalism.....	176
Books on stimulating local economic activity.....	177
Co-intelligence.....	177

General tips for working in groups	178
Governing the “Commons”	179
Tools for aid work and creative facilitation	179
Ecovillages (Day Eleven – Second part of Session 2)	180
What is an Ecovillage?	180
Why create ecovillages?	180
Success factors of Intentional Communities	181
Strategies & Techniques for Different Climates (Bonus section of notes)	183
Examples of Climatically Appropriate Design Solutions	184
Tropics	184
Arid / Desert Climate Example	187
Trusts & Legal Strategies (Bonus section)	189
Money & Finance (Day Twelve)	191
The Function of Money in an Economy	191
How is Money Made?	191
Strategies for developing Economic Systems that serve Communities	191
Ethical investment	192
Defining ethical business practices	192
Peer-to-peer	193
Resources	193
Making a living using permaculture (Day Twelve – Second session)	194
Consultancy, implementation and education business	194
Garden produce	195
Farm Produce	195
Appendix 1.: Design Assignment	1
Appendix 2.: Learning Style Self-Assessment Questionnaire	5
Appendix 3.: Example People Analysis / Host Survey	8
Appendix 4.: Bill Mollison on Slope, Aspect & Elevation Planning	10
Appendix 5.: Holistic Management	13
Appendix 6.: Further Reading	16
Appendix 7.: Key Terms	17
Endnotes	18
